

Hafi INDUSTRIAL VACUUM CLEANER

Hafi elektra pvt. ltd.™

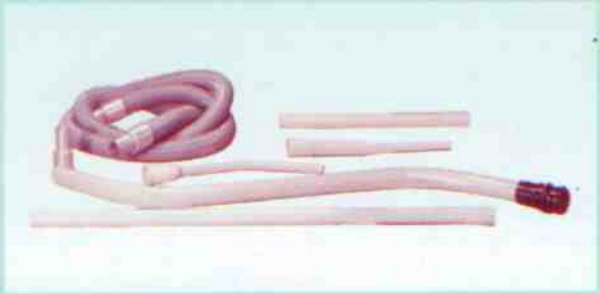

Hafi INDUSTRIAL VACUUM CLEANER

This is powerful and robust, yet compact and manoeuvrable and ideally suited for a wide range of cleaning and dust extraction duties in industry. The exhauster driven by a motor, makes it the perfect machine for those jobs where a really powerful suction is required either for collecting heavy material or for connection to a semi-fixed pipe system.

With the aid of a 50 mm hose pipe connected with a suitable accessory tool, the Cleaner picks up Dust, Metallic Shavings, Chips, Cotton rags Greasy Industrial waste, high viscosity oil, liquid spillages etc. both directly from the machines as well as from industrial floorings. A mechanical preseparator directs the heavy particles and the liquids straight into collecting container. The subsequent cloth filter retains the fine particles. The filtration system is based on fabric, suspended from a manual shaker mechanism to relieve filter clogging.

The machine is widely accepted in Engineering, Pharmaceutical, Power Station, Atomic Energy, Ship Building, etc. The machine is extremely low in maintenance. It can be run continuously. Hose pipe can be Extended upto 10 - 15 mtrs. Depending on application.

Basic set accessories for machine cleaning

PVC Flexible Hose 50 X 5 mtr. - 1 no.,
 PVC Straight Nozzle ½ mtr. Long - 3 no.,
 Bend Nozzle - 1 no., Flat nozzle - 1 no.,
 Reducer - 1 no., Hose coupler - 1 set.
 Special accessories available at extra cost.,
 Cyclonic Separator, Special Filters, Interceptor for
 Liquid, Special collecting tools.
 Customer specific suction / pressure generating
 models can also be supplied.

TECHNICAL SPECIFICATIONS

MODEL NO.	HE - 4000 W	HE - 3000 W	HE - 2700 B	HE - 2100 B	HE - 1700 B	HE - 1200 B
MOTOR (3 PHASE) hp/rpm	7.5, 2900	7.5, 2900	5, 2900	3, 2800	3, 2800	2, 2800
